

tedee GO

Make your door smart
in minutes

Insert your key

Put Tedee GO on

Fix three screws

What does make it a GO?

Keep your door lock

You will install your Tedee GO in minutes, using your current lock cylinder – without hardware replacement.

Save your keys

Tedee GO is a key-turner, so you don't have to replace your keys.

Fix three screws

It only takes three screws to fix and secure the smart lock's regular fit on your door.

Invisible from the outside

Unlock it with a key.

Securely installed inside

Unlock it manually or with a button.

What you need to know

The easiest installation method of Tedee GO is available for European lock cylinders. With other door lock types, an adapter may be required.

Before purchase, make sure your lock cylinder features the emergency function. Check if it works when two keys are inserted simultaneously on both sides.

Your existing cylinder may require adding a small adapter on the door. This is included in the Tedee GO box with an easy-to-use manual to guide you.

The easiest way to explore the best Tedee features

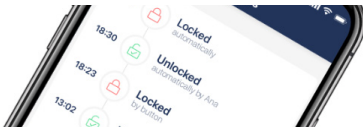

Enter

Unlock with the Tedee app, mobile widgets and smart watches – or unlock it automatically.

Share

Easily send “digital keys” – valid forever or time-restricted.

Protect

Use an activity log and manage lock users with three access levels.

Host

Automate self-check-ins to your rental with extra accessories.

For your home **Forget your keys forever**

Save time and hassle by locking and unlocking your door automatically or with your phone.

For your business **Ditch the access cards**

They get lost or forgotten. Let your employees use smartphones instead. Use smart locks for cheaper, easier, and wireless access management.

For your rental **Host automatically**

Offer keyless and self-service check-ins so you and your guests don't have to wait around.

Your extra benefits

Tedee keypad Unlock with your PIN

Put a small keypad outside your home to unlock the door without keys or smart devices. Just use the PINs for access sharing and security whilst maintaining total privacy.

Tedee smart bridge Access the front door remotely

Connect your smart lock to the internet to control your Tedee GO from wherever you are. Unlock your door remotely, check the real-time smart lock activities, and control everything with a mobile widget.

Tedee smart relay module Make gates and garages smart

Street entrance. Front gate. Garage door. One app. Replace your remote control, cards, or keys with your mobile phone.
